Aspiring Full-Stack Developer | Passionate About Continuous Learning & Building Innovative Solutions

Essaouira, Marrakesh-Safi, Morocco

Summary

About Me

I'm an aspiring Full-Stack Developer with a passion for coding and problem-solving. Currently studying Génie Informatique (Computer Engineering) at École Supérieure de Technologie (EST), Essaouira, I specialize in software development, database management, and algorithms. I am driven to take on complex challenges and create innovative, user-centered solutions.

Technical Skills

I have hands-on experience in:

Programming Languages: C, C++, Java, PHP, JavaScript

Web Development: HTML, CSS, Laravel

Algorithms & Problem-Solving: Deep understanding of algorithms and data structures

Databases: MySQL, PostgreSQL

Other Technologies: Basic knowledge of Linux and Git

Future Learning Goals: Mobile development (Kotlin) and NoSQL databases (MongoDB)

I'm continuously learning and refining my skills, staying updated with new developments in the field.

Passion for Problem-Solving

The excitement of solving complex problems keeps me motivated. With a solid foundation in algorithms and C/C++, I love turning theoretical concepts into practical solutions. Whether building software or optimizing systems, I thrive on efficiency and functionality.

Looking Forward

I'm eager to take on new opportunities where I can apply my skills in real-world projects. I'm always ready to collaborate, learn, and grow

in a team-oriented environment or work independently on challenges that push me to evolve.

Education

Higher School of Technology of Essaouira - Cadi Ayyad University
DUT, Computer Science · (October 2023 - June 2025)

Ecole Supérieure de Technologie d'Essaouira - Université Cadi
Ayyad
· (2024)
